Challenge Activities

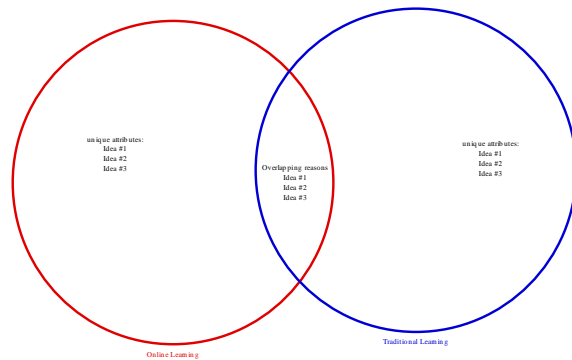

Looking for other online activities? Check out these additional websites.

www.wolframalpha.com

Use this site to look up anything from the President of Argentina to solving algebraic equations. What phase was on the moon in on May 28, 1977? What does a fasting glucose of 125 mean? Find all the answers here!

www.khanacademy.org

This website boasts that you can learn almost anything for free. There are videos on almost every topic, including math, science, finance, and humanities. Also, check out the practice activities. With an account, you can keep track of your learning and share it with others. The more you learn, the more badges you can earn.

Answer these questions:

Which class would you choose? (face to face, hybrid, or 100% online?) Explain your choice.

Do you feel that online learning is a good fit for a student like you? Why or why not?

Look back at the six characteristics. Which of these are your strengths?

Which of these are weaknesses?

1. Take this [Hands-on-line Quiz](#) . The password for the quiz is **hands21** . Do your best!
2. Take a screenshot of your quiz results to show your teacher.
